PROFILE SUMMARY

Backend Software Engineer with **3.5+ years of experience** building scalable applications using **Java, Spring Boot, and Microservices architecture**. Strong foundation in **Data Structures & Algorithms (DSA)** and experience designing **high-performance REST APIs and distributed systems**. Passionate about building reliable, production-grade systems and solving complex engineering problems.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, PHP
 - **Backend:** Spring Boot, Microservices, REST APIs
 - **Frontend:** React.js
 - **Database:** MongoDB, MySQL
 - **Tools:** Git, GitHub, AWS
 - **Core Concepts:** DSA, OOP, System Design Basics
-

WORK EXPERIENCE

Associate Software Engineer

Gemini Consulting & Services *(Aug 2024 – Present)*

- Designed and developed **REST APIs using Spring Boot** for State Transport Authority systems
- Built backend services for **RTO portal**, handling real-time workflows and data processing
- Developed **admin and public-facing portals**, improving modularity and usability
- Integrated **chatbot functionality**, enhancing automation and user interaction

- Collaborated in Agile teams to deliver **scalable production systems**
-

Rapid Application Developer

Batoi Systems Pvt Ltd (*Feb 2023 – Aug 2024*)

- Developed backend APIs for **B-Cube Finance Audit Management system**
 - Contributed to **Clinical Diagnostic Assessment (CDA)** platform
 - Improved **system reliability and maintainability** through clean architecture
 - Built scalable backend services using **Java and Spring Boot**
-

PROJECTS

AI Fitness Microservices System (Gemini AI Integration)

 <https://fitness-application-react-frontend.onrender.com>

- Designed and developed a **microservices-based fitness platform** supporting user onboarding and activity tracking
 - Built **REST APIs using Spring Boot** to manage fitness data (calories, steps, duration)
 - Integrated **AI-based recommendation engine** to generate personalized fitness insights based on user activity
 - Implemented **workflow-based processing (FAILED → SUCCESS)** to ensure reliability and fault tolerance
 - Used **MongoDB** for flexible schema design and efficient storage of activity data
 - Architected system for **scalability, modularity, and multi-user support**
-

EDUCATION

Master of Computer Applications (MCA)

Biju Pattnaik University of Technology

GPA: 7.8 (2016 – 2019)
